

Insurance Reimbursement information

Even though our office runs on a fee-for-service cash-pay model, meaning you pay out of pocket for services provided, we are excited to announce that you may be eligible to receive reimbursement from your insurance provider for certain services.

We are trying to make it easier for you to access the care you need. Our provider is currently in network with **Aetna and Highmark Blue Cross Blue Shield West Virginia** helping make covered services more accessible for eligible patients. We also have credentialing pending with Cigna and PEIA and will continue to share updates on our website as well as our Facebook page when those plans become available. We are happy to provide you an itemized bill and supporting documentation to help you submit your claim.

Please keep in mind that reimbursement depends on your individual plan, including coverage, deductibles, copayments, coinsurance and other requirements. You may need to contact your insurance company for any additional information or questions regarding your plan.

Contact our office at 681-433-5554 if you need any additional documentation or have any questions regarding the process
